

HandyDup®

— an affordable dealing machine

The HandyDup® gives you the same possibilities as the top of the range dealing machines for less.

A HandyDup® is therefore the ideal solution for:

Clubs with limited budget and **teachers**.

Teams wanting the deals in electronic form (for analysis/replay)

Duplicate at home (from one table and up).

The HandyDup comes with a very **comprehensive software** package with everything you need for dealing, duplication, analyses, printing, video presentations, web publishing, etc.

You can deal in the way you normally do (the deal is registered) or let the four lamps (encircled in the illustration) tell you where the cards shall go (the deal is duplicated). You can **see it in action**, and download the software, at www.handydup.com
